

Numbers

Thanks to our speech language therapists there are currently 57 children in the study who are receiving/have received treatment.

Overview Flanders

Overview Wallonia

In our previous newsletter you may have read that we were in full search for three speech language therapists to fill the last places. We have now found these. So currently there are 30 speech language therapists participating in our study. Welcome and good luck to the new SLT's!

Update FAQ

Many questions were added to the FAQ. Speech language therapists can access the new version on the [website](#).

The FAQ will be updated every three months.

A quick reminder

Keep providing good videos (the child should speak sufficiently, without treatment, facing the camera). The video quality is very important for the study.

European SLT Day

On March 6, we celebrated the European day of speech and language therapy. Therefore, we would like to put our [speech language therapists](#) in the spotlight once again. Thank you for your hard work!

Thank you for your interest in the TreatPaCS study!
