

Newsletter January 2026

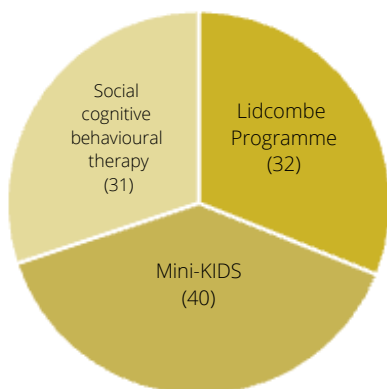

Numbers

We welcomed many children to our study again. Thanks to our speech language therapists there are currently 203 **children** in the study **who are receiving/have received treatment**.

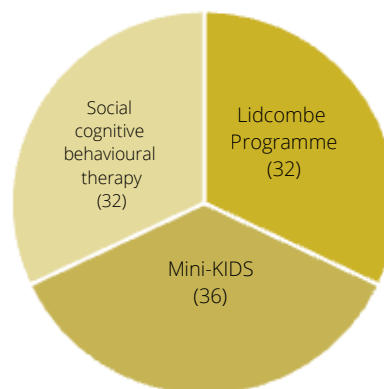

Overview Flanders

(103 children)

Overview Wallonia

(100 children)

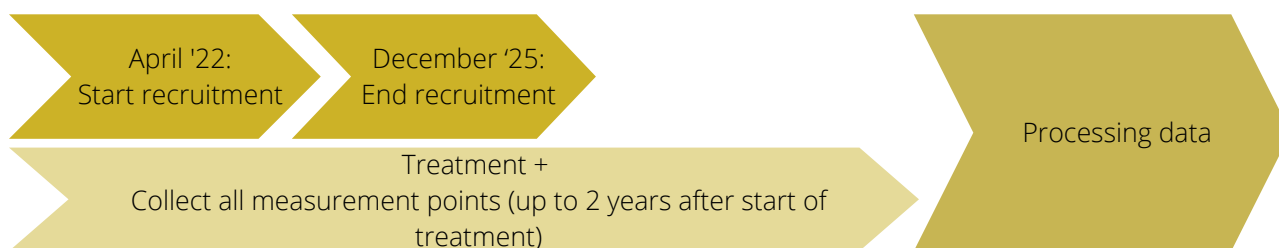

Great news, because this allowed us to **complete recruitment** with more children than targeted. In total, our speech therapists were able to include **251 children!**

Where are we currently in our research?

All children who are participating in the study will receive their treatment as intended. Also, we will continue to collect all data at the different measurement points over the next two years. After that, all data will be processed.

We will keep you informed about the TreatPaCS study through our newsletters. From now on, these will be published twice a year on the website.

Thank you for your interest in the TreatPaCS study!
